

ulv FOGGER H05

The H05 is one of the best aerosol ULV foggers currently available, with its water and oil-powered 50Hz engine kicking out 1400w at 220V AC power.

Whether you're a property owner or a commercial premises manager/owner, the ULV Fogger H05 allows you to eliminate all crawling and flying pests with ease and a high degree of efficiency.

The storage tank can easily hold up to 5 liters of pesticide, while the 0-49 l/h flow rate output is one of the best in the ULV fogger industry. Boasting an impressive fogging and disinfection speed of 15-10 km/h, the H05 is a very practical and economical solution to your pest problems. It weighs a mere 5.3 kg with an adjustable solution droplet size of 49-9 microns.

The low weight and compact size makes it highly suitable for private and commercial use, although it is highly recommended that you carefully study and understand the safety and operational instructions beforehand.
